Revised: 26.07.2016 Rev3

MATERIAL SAFETY DATA SHEET HISTOLOGICAL WAX (PHC 9009)

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION & COMPANY

1.1	Product Identifier Product name: REACH registered name: REACH registered No: CAS number: EC number:	Histological Wax (PHC - See section 3 See section 3 See section 3	9009)
1.2	Use of substance Intended uses: Uses advised against:	Tissue Embedding No information availab	le
1.3	Supplier Details Name: Address: Phone Number: Fax Number: Email:	Poth Hille & Co. Ltd 18 Easter Ind. Park, Fe RM13 9BP +44 1708 526828 +44 1708 525695 info@ poth-hille.co.uk	erry Lane South, Rainham, Essex, (Monday - Friday 08.00-17.00)
1.4	Emergency Number	+44 1708 526828	(Monday - Friday 08.00-17.00)

2. HAZARDS IDENTIFICATION

2.1 Classification of the Substance of Mixture:

Does not contain any components which are hazardous according to CLP Regulation 1272/2008/EC

2.2 Label Elements:

Does not require a hazard warning label in accordance with CLP Regulation 1272/2008/EC.

2.3 Other Hazards:

PBT: This product is not identified as a PBT/ vPvB Substance according to REACH Annex XIII. Hot liquid may cause thermal burns.

Date prepared: 01.11.2012

Revised: 26.07.2016 Rev3

3. COMPOSITION/INFORMATION ON THE COMPOSITION

3.1 Substances

Substance Name	CAS-No	EC Number	REACH Reg No
Paraffin Wax	8002-74-2	232-315-6	01-02119488076-30
Polymer	9003-27-4	618-360-8	-

3.2 Mixtures

Not applicable. There are no additional components present which, to the knowledge of the supplier, are classified or contribute to the classification of the substance according to 1272/2008/EC.

4. FIRST AID MEASURES

4.1 Description of First Aid Measures

Remove contaminated/saturated clothing. In case of accident or illness seek
medical advice immediately. Remove the affected person to fresh air, keep warm and rest. If recovery is not rapid, seek medical advice.
Wash the affected parts of the body with soap and water. No emergency measures are necessary but if adverse skin effects follow, seek medical advice.
Flush eyes immediately with fresh water for at least 5 minutes while holding the eyelids open. No emergency measures are necessary but if adverse eye effects follow, seek medical advice.
Do not induce vomiting. No emergency measures are necessary but if adverse health effects follow or large amounts are swallowed, seek medical advice.
toms and effects, both acute and delayed High concentration of vapours may induce: Headache, nausea, dizziness.

Innatation	right concernation of vapeare may made in readactio, made a, all incore
	Irritant effect to the respiratory tract.
Skin Contact:	May cause slight irritation to the skin. Heated product may cause burns.
Eye Contact:	May cause slight irritation to eyes.
Ingestion:	May cause nausea.

4.3 Indication of any immediate medical attention and special treatment needed In contact with or splashed by melted product, quickly cool area with water.

Poth Hille & Company Limited Regd. Office: 18 Easter Park, Ferry Lane South Rainham Essex,RM13 9BP Telephone : (+44) 01708 526828 Fax: (+44) 01708 525695/526898 Email:info@poth-hille.co.uk, <u>www.poth-hille.co.uk</u>

4.2

Date prepared: 01.11.2012

Revised: 26.07.2016 Rev3

5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media: Foam, Dry Chemical Powder, Carbon Dioxide. Unsuitable extinguishing media: Water.

5.2 Special hazards arising from the substance or mixture

Slight flammability hazard when exposed to heat or flame. During a fire, toxic gases (carbon monoxide, nitrous gases) may be generated by thermal decomposition or combustion.

5.3 Advice for firefighters

Only suitably trained personnel should attempt to tackle fires. Breathing apparatus and protective clothing should be worn. Do not remain in the immediate vicinity without respiratory protective equipment and protective clothing.

6. ACCIDENTAL RELEASE

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: Wear suitable protective clothing. See section 8. Stop leak if safe to do so. Remove sources of ignition.For emergency responders: Wear suitable protective clothing and breathing apparatus. See section 8. Stop leak if safe to do so. Remove sources of ignition

6.2 Environmental precautions

Water may be used to flush spills away from sources of ignition. Prevent spreading by damming. Do not allow the product to enter public drainage system or open water course. Avoid release to the environment.

6.3 Methods and material for containment and cleaning up

Containment:Stop leak if safe to do so. Use damming system to prevent spreading.Cleaning up:Use sand or active clay to absorb spilled substance and remove to containers
for disposal. When in liquid state, cool and allow to solidify.

6.4 Reference to other sections See sections 8 and 13

7. HANDLING AND STORAGE

7.1 Precautions for safe handling

Recommendations:	Handle in accordance with GMP and safety procedures. The molten product can cause severe burns. Use molten product in well ventilated areas. Use
	personal protective equipment as required.
General advice:	Do not eat or drink in immediate vicinity. Wash hands after use. Remove any
	contaminated clothing before eating or drinking.

Date prepared: 01.11.2012

Revised: 26.07.2016 Rev3

2mg/m³ (paraffin wax fumes). However in all circumstances

7.2 Conditions for safe storage including any incompatibilities

Keep material sealed, dry and out of direct sunlight. Avoid heat and ignition sources. Store in original containers or other high density polyethylene containers which are sealable and clearly labelled. Clean up spilled material immediately.

7.3 Specific end use(s)

No data available

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control Parameters

- TWA TLV (ACGIH):
 - exposure should be kept as low as reasonably possible by good ventilation and safe work practices.

 DNEL:
 No data available

 PNEC:
 No data available

 PEL:
 No data available

 REL:
 No data available

 Exposure Controls
 No data available

 Appropriate engineering measures:
 Facilities storing or utilising this material should be equipped with an eyewash facility.

Eye protection:	Wear appropriate eye protection with side shields (EN166).
Skin protection:	Use impervious gloves (EN374). PVC is suitable for casual
	contact. If direct contact for more than 2 hours then
	Neoprene or nitrile gloves recommended.
Respiratory protection:	Inhalation of the vapour, fumes or mists should be avoided
	by safe working practices and good ventilation.
Thermal Hazards:	Thermal hazards only applicable when material is heated.
	Use appropriate heat resistant gloves.
Environmental Exposure Controls:	See sections 6, 7, 12 and 13.

9.

8.2

PHYSICAL & CHEMICAL PROPERTIES

9.1 Information on basic chemical and physical properties

Appearance:

Odour: Odour Threshold: pH: Melting point/Congealing point: Initial boiling point/range: Flash point: Evaporation rate: Liquid (at elevated temperature) Solid (at ambient temperature) Typical No data available Neutral 54-57°C >300°C >200°C No data available

Date prepared: 01.11.2012

Flammability (solid, gas): Explosion Limits: Vapour pressure: Vapour density: Relative density (at 15°C): Solubility in water: Solubility in other solvents: Partition coefficient n-octanol/water: Auto-ignition temperature: Decomposition temperature: Viscosity (Kinematic, at 100°C): Explosive properties: Oxidizing properties: Revised: 26.07.2016 Rev3 May be combustible at high temperatures No data available No data available No data available 0.83-0.86g/cm³ Insoluble Petroleum Ether, Ethyl Acetate No data available >200°C No data available ~4.0cSt No data available No data available

9.2 Other information

No data available

10. STABILITY AND REACTIVITY

10.1 Reactivity

Not reactive under normal storage and handling conditions (see section 7). May react with strong oxidising agents, especially at high temperatures.

10.2 Chemical stability

Stable under normal storage and handling conditions.

10.3 Possibility of hazardous reactions No hazardous reactions are expected to occur under normal storage and handling conditions.

10.4 Conditions to avoid

Extremes of temperature (preferably, store between 5 and 39°C). The product is combustible when heated >300°C.

10.5 Incompatible materials

May react with strong oxidants (e.g. chlorates, peroxides).

10.6 Hazardous decomposition products

Thermal decomposition or incomplete combustion may produce carbon monoxide, nitrous gases and irritating fumes.

11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects This mixture does not meet the criteria for classification in accordance with Regulation No 1272/2008/EC.

Registered in England No.82948

Established 1870 Date prepared: 01.11.2012

Revised: 26.07.2016 Rev3

Acute toxicity Oral: LD50 >5000mg/kg (OECD 401) Inhalation: LD50 >2000mg/kg (OECD 402) Skin corrosion/irritation Not irritant (OECD 404) Serious eye damage/eye irritation Not irritant (OECD 405) Respiratory or skin sensitisation Non-sensitising (OECD 406) Germ cell mutagenicity Negative (OECD 476) Reproductive toxicity

NOAEL >1000mg/kg bw/day (OECD 421 or 422)

- Specific target organ toxicity single exposure Not classified as a specific target organ toxicant (single exposure)
- Specific target organ toxicity repeated exposure
- Not classified as a specific target organ toxicant (repeated exposure)

Aspiration hazard

Not classified as presenting an aspiration hazard - based on available data, the classification criteria are not met.

Likely routes of exposure

Skin/eye exposure - no adverse health effects expected.

Symptoms related to the physical, chemical and toxicological characteristics

If swallowed

- Diarrhoea, gastrointestinal complaints
- If inhaled No data available
- If on skin

No data available

Delayed and chronic effects from short and long-term exposure No data available Other information No data available

12. ECOLOGICAL INFORMATION

12.1 Toxicity

Aquatic toxicity (Pimephales promelas): LD50 >100mg/l (96h) (OECD203/ISO7346/EEC84/449/V, C1) Aquatic toxicity (Pseudokirchnerella subcapitata): NOAEL 100mg/l (OECD201) Aquatic toxicity (Daphnia magna): EL50 >10000mg/l (96h) (OECD202)

12.2 Persistence and degradability

Insoluble in water – can be separated from water in suitable effluent treatment plants.

12.3 Bioaccumulation potential

Revised: 26.07.2016 Rev3

No data available

12.4 Mobility in soil Non-volatile and absorption into soil solid phase not expected.

Date prepared: 01.11.2012

- **12.5** Results of PBT & vPvB assessment Not identified as a PBT/ vPvB Substance according to REACH Annex XIII.
- **12.6 Other adverse effects** No data available

13. DISPOSAL CONDITIONS

13.1 Waste treatment methods

Treat in accordance with EU directive 2008/98/EC. Transport to authorised waste location, or incinerate under controlled conditions (EU Directives 2000/76/EC and 1999/31/EC apply). Do not dispose to drains or sewage systems.

14. TRANSPORT INFORMATION

- 14.1 UN number Not classified
- 14.2 UN Proper shipping name Not Classified
- 14.3 Transport Hazard Class(es) Not Classified
- 14.4 Packing Group Not Classified
- 14.5 Environmental Hazards None
- 14.6 Special Precautions for user None
- 14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC code Not classified

15. **REGULATORY INFORMATION**

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Registered in England No.82948

Established 1870

Date prepared: 01.11.2012Revised: 26.07.2016 Rev3EU Regulations:Regulation [EC] 1272/2008 including amendments
Regulation [EC] 1907/2006 including amendments (EC 2015/830)

15.2 Chemical Safety Assessment

The supplier has not performed a chemical safety assessment of this substance.

16. OTHER INFORMATION

Indication of changes: All sections revised according to Regulation [EC] No 1272/2008 [CLP] in preparation for the 1 June 2015 deadline.

Rev3 - Reach registration number(s) added to composition.

Abbreviations & Acronyms:

ACGIH:	American Conference of Governmental Industrial Hygienists
CAS No:	Chemical Abstract Service number
CLP:	Classification Labelling and Packaging Regulation
DNEL:	Derived No Effect Level
EC:	European Commission
EC No:	European Chemical Number – EINECS – ELINCS
ECHA:	European Chemical Agency
EINECS:	European Inventory of Existing Commercial Chemical Substances
ELINCS:	European List of Notified Chemical Substances
ES:	Exposure Scenario
LD50:	Median Lethal Dose
LC50:	Median Lethal Dose
NOAEL:	Median Lethal Concentration
PEL:	No Observed Adverse Effect Level
PNEC:	Permissible Exposure Limit
REACH:	Predicted No Effect Level
REL:	Registration, Evaluation, Authorisation & restriction of Chemicals
TLV:	Recommended Exposure Limit
TWA:	Threshold Limit Value
TWA:	Time Weighted Average

Hazard Statements/Precautionary statements: None

The information contained herein is for health and safety guidance only and does not constitute a product specification. It is, to the best of our knowledge and belief accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by use of this material. It is the responsibility of the user to comply with all applicable laws and regulations.
